ZAL PARTNERS

AIRBUS

AUTOMATION & ROBOTICS FOR AVIATION

DID YOU KNOW...

That our R&T team can solve most technical tasks you present to us? **40 scientists and engineers** are waiting to support you. From A like “Automation & Robotics” to Z like “ZAL Fuel Cell Lab”, we can offer you multidisciplinary solutions.

We realize your vision, and even more, we make it fly. As we are **located in one of the most advanced research centers** for civil aviation worldwide, you can be sure that our solutions meet the complexity of aviation.

YOUR CHALLENGE

You have an idea? But it might be complicated?

You want to automate? But you don't know if its feasible?

You want to be fast? But finding the right partners takes time?

OUR SOLUTION

We got you. We offer idea generating, consulting, testing feasibility and building functional prototypes. Agile and multidisciplinary. From conventional automation and industrial robotics to mobile robots and collaborative robot arms.

And if we can't do it, our network can. Finding the solution for your problem is easier in a 26.000m² “Open Innovation” research center.

YOUR ADVANTAGE

Research projects with renowned research facilities taught us **cutting edge technology**. Industrial projects with major aerospace companies taught us what is applicable in **real-world environments**. We are combining **state of the art** and **feasibility** to offer the smartest solution for your problem.

Let's have a coffee!
